Corn Flake Feed	\$3.00 per 100
Acid Phosphate 16 per cent	\$27.50 per ton

Phone 19 F. 4.

TUTTLE & SMITH

### FARM BUREAU NOTES

Considerable damage has been done to the wheat fields of this county by Loose Smut and the Wheat Joint Worm.

The injury from the loose smut seems to be very general and some farmers upon finding the smutted heads where the seed was treated for smut with formaldehyde may be led to believe that the treatment was not effective. Such is not the case however, for the smut which is really controlled by the formaldehyde is not the loose smut, but what is known as bunt or stinking smut.

The loose smut which is doing the damage this Spring is not controlled by formaldehyde. Loose smut is controlled by treating seed wheat with hot water.

Very full and definite information regarding this disease and its control can be secured from the U. S. Department of Agriculture, Farmers Bulletin No. 939, which can be secured by writing to the Division of Publications of the U. S. Department of Agriculture, Washington, D. C. and requesting same.

The Joint Worm is responsible for the many dead heads now noticeable in wheat fields, also the many stalks which have fallen to the ground. If the stalks which have fallen and are still green are examined carefully by splitting open with a knife, woody galls will be found in the lower portion of the straw and inside the galls are dirty white worms about one eighth of an inch in length. It is these worms that are doing the damage.

The best means of control where fields are not seeded to clover will be to cut grain high, then as soon as possible plow deeply. Where fields are seeded to clover, cut grain fairly high and in late fall or early winter run a fire over the field burning the stubble and fallen straw which will destroy the insect.

The above with proper rotation and heavy fertilization to make plants grow rapidly and to be able to resist attack of the insect are about the best measure of control.

### Pedigreed Grains Inspected

The Michigan Crop Improvement Association Inspector will begin work in the county the last days in June or the first in July. Any one having eligible fields should lose no time in making application for inspection if such is desired.

### GO NO FURTHER.

The evidence is at your door. Paw Paw proof is what you want and the statement of this highly respected citizen will banish all doubt.

A. W. Cumings, N. Gremps St. Paw Paw, says: "For a long time I suffered from such pains through my back and loins, when I stooped over, I could hardly straighten up again. My kidneys acted irregularly and the secretions were unnatural. I used Doan's Kidney Pills and they gave me complete relief. Whenever I have felt that my kidneys were out of order and my back has been lame, since, I have used Doan's Kidney Pills, procured from Longwell Bros. Drug store and they have never failed to relieve me. (Statement given January 10th, 1913.)

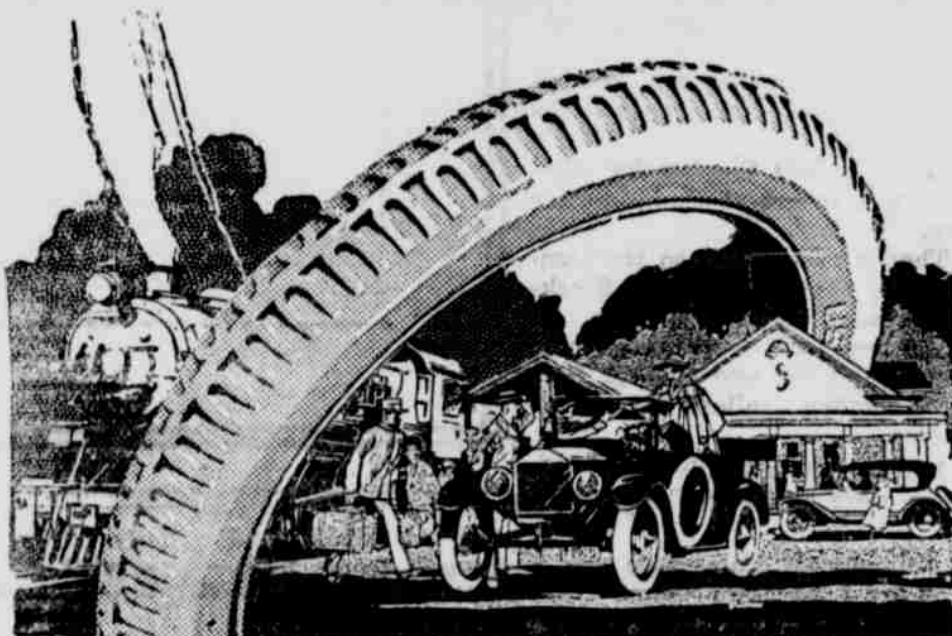

STILL USES DOAN'S.  
On October 5th, 1916, Mr. Cumings said: "I still use Doan's Kidney Pills whenever I need them. They keep my kidneys in good condition. Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Co., Mfgs. Buffalo, N. Y."

Wm. E. Cutler & W. to E. L. Johnson & W. Pel. Sec. 32, Waverly—\$1000.00

'Usco' Tread

## We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.
